## Document Body

Hi Carmen,

As required by U.S EPA in its conditional approval letter under Condition A.2.a (July 1, 2011), a revised post excavation cleanup verification sampling approach to meet the proposed cleanup levels by depth is outline in the attached summary for the polychlorinated biphenyl (PCB) soil excavation activities. The proposed sampling will augment the "Soil Verification Sampling" presented in Section 2.3 of the draft Sampling and Analysis Plan (SAP). I'll give you a call in Monday to discuss further.

Thank you,

**Linda Conlan, PG**

**Principal Geologist**
